environment & planning a

international journal of urban and regional research · volume 13 1981 · a pion publication

Editor A G Wilson
School of Geography, The University of Leeds, Leeds LS2 9JT, England

Coeditors
D E Boyce
Dept of Civil Engineering, University of Illinois, 208 North Romine Street, Urbana, Illinois 61801, USA

R J Johnston
Department of Geography, The University of Sheffield, Sheffield S10 2TN, England

Coeditor and book reviews editor N J Thrift
Dept of Human Geography, Research School of Pacific Studies, Australian National University, PO Box 4, Canberra, ACT 2600, Australia

Algorithms editor S Openshaw
Department of Town and Country Planning, University of Newcastle upon Tyne, Newcastle upon Tyne NE1 7RU, England

Editorial advisory board
R J Bennett, Department of Geography, University of Cambridge, Cambridge, England
R Bussière, Centre de Recherche d'Urbanisme, Paris, France
M Chatterji, School of Management, State University of New York, Binghamton, USA
D Cross, Department of Town and Country Planning, University of Manchester, England
R Funck, Inst. für Wirtschaftspolitik und Wirtschaftsforschung, Univ. Karlsruhe, FRG
B J Garner, Department of Geography, University of NSW, Kensington, Australia 2033
P Gould, College of Earth and Mineral Sciences, Pennsylvania State University, USA
T Hägerstrand, Department of Geography, University of Lund, Sweden
P Haggett, Department of Geography, University of Bristol, England
B Harris, Department of City and Regional Planning, University of Pennsylvania, USA
B Hutchinson, Department of Civil Engineering, University of Waterloo, Ontario, Canada
A Mabogunje, Department of Geography, University of Ibadan, Nigeria
Sally M Macgill, School of Geography, The University of Leeds, Leeds LS2 9JT, England
Doreen B Massey, Dept of Geography, London School of Economics, London, England
Yu S Popkov, Institute for System Studies, Moscow, USSR
T O'Riordan, School of Environmental Sciences, Univ. of East Anglia, Norwich, England
P H Rees, School of Geography, The University of Leeds, Leeds LS2 9JT, England
H W Richardson, Dept of Economics, State University of New York at Albany, USA
A Rogers, IIASA, Schloss Laxenburg, Austria
A J Scott, Dept of Geography, University of California–Los Angeles, Los Angeles, USA
D W G Timms, Department of Sociology, University of Stirling, Scotland

Contents

Volume 13, number 1

Guest editorial 1

Multiobjective modelling for economic–environmental policies 7
W Hafkamp, P Nijkamp

An extended programming experience 19
B Harris

A contribution to the study of industrial location decisions 29
D Z Czamanski

Multiattribute shopping models and ridge regression analysis 43
H J P Timmermans

The analysis and forecast of housing requirements: tenure switching in a local housing market 57
R K Wilkinson, I A Law

Spatial interdependencies in population distributions: a study in univariate map analysis. 1 Rural population densities 65
R P Haining

Spatial interdependencies in population distributions: a study in univariate map analysis. 2 Urban population distributions 85
R P Haining

Temporal change in a central-place system 97
J B Parr

Letter to the editor 119

Reviews 121

Volume 13, number 2

Editorial 135

Spatial variations in Australian enterprise: the case of large firms headquartered in Melbourne and Sydney 137
M J Taylor, N J Thrift

Proximity and the formation of public attitudes towards mental illness 147
C J Smith, R Q Hanham

Urban evolution, self-organization, and decisionmaking 167
P M Allen, M Sanglier

Aggregation in data tables: implications for evaluating criminal justice statistics 185
L J Hubert, R G Golledge, C M Costanzo, T Kenney

Towards a fuller understanding of residential mobility: a case study in Northampton, England 201
R T Coupe, B S Morgan

On the relationship between Alonso's theory of movement and Wilson's family of spatial-interaction models 217
J Ledent

Can agglomeration economies explain why people are leaving large cities? 225
C B Hawley, M S Fogarty

Program GROUP: the identification of all possible solutions to a constituency-delimitation problem 231
D J Rossiter, R J Johnston

Urban population density: a comment 239
J Andrulis

Recent migration patterns in the developed world: a clarification of some differences between our and IIASA's findings 243
D Vining, R Pallone, D Plane

Letters to the editor 251

Reviews 253

Volume 13, number 3

Editorial 265

On the use of Bregman's balancing method for the solution of relaxed distribution problems 267
R Lebeuf, K Jörnsten, N F Stewart

A spatial equilibrium analysis of flexible zoning and the demand for development rights 273
B E Carpenter, D R Heffley

New industry input linkages in Ireland: an econometric analysis 285
P N O'Farrell, B O'Loughlin

Unidimensional seriation: implications for evaluating criminal justice data 309
L J Hubert, R G Golledge, T Kenney, G D Richardson

Performance regulation and industrial location: a case study 321
M Storper, R Walker, E Widess

Liquefied energy gases in the UK: what price public safety? 339
Sally M Macgill

Spatial aspects of intraurban migration behaviour in a mixed housing market 355
R G Ford, G C Smith

Women in nonmetropolitan areas: a time-budget survey 373
Risa Palm

Reviews 379

Volume 13, number 4

Editorial/Editor's note 395

A behavioral approach to modelling household motor vehicle ownership and applications to aggregate policy analysis 399
M Ben-Akiva, C F Manski, L Sherman

Flows, hierarchies, potentials 413
M Sonis

Factors affecting the development of new towns in Israel 421
E Borukhov, E Werczberger

The effect of temporal constraints on household travel behavior 435
U Landau, J N Prashker, M Hirsh

Analytical problems in linking an activity model with a transportation network model 449
J Berechman

Regional inequalities in Israel 463
A Shachar, G Lipshitz

The appropriateness of using various Minkowskian metrics for representing cognitive configurations 475
G D Richardson

A comparison of input-output structures and multipliers: MRIO and survey models for West Virginia and Kansas 487
C F Socher

Space-time budgets, public transport, and spatial choice 497
P C Forer, Helen Kivell

Letter to the editor 511

Reviews 513

Volume 13, number 5

Editorial 529

Editor's note: more on the history of fixed demand user-equilibrium assignment 530

Social needs, political representation, and federal outlays in the East North Central United States of America 531
K Hoggart

Statistical analysis of the pattern similarity between two sets of regional clusters 547
A Okabe

A Hicksian model of labour turnover and local wage determination 563
G L Clark

Optimal urban plans 575
P Gordon, L Wingo

Modelling the geographic component of mass transit subsidies 581
D C Hodge

A note on the stability of equilibrium solutions of production-constrained spatial-interaction models 601
M Clarke

On the impact of geographic distance on the interregional patterns of production and trade 605
Karin Peschel

Combined heat and power generation schemes: a feasibility study 623
J R Beaumont, P Keys

Time-series modelling in a regional economy: an exposition of Box-Jenkins techniques 635
T Cook, P Falchi

Functional regionalization of spatial interaction data: a comment 645
A Findlay, P B Slater

Letter to the editor 647

Reviews 649

Volume 13, number 6

Editorial 663

A tight bound drop exchange algorithm for solving the p median problem 669
R A Whitaker

Generalized information measures 681
M E O'Kelly

A city-size distribution model based on the Weber-Fechner law of marginal effects 689
R Bussière, T Stovall

A theory of activity scheduling behavior 703
D Damm, S R Lerman

The environment and planning of Alaska 719
A J Catanese, J C Snyder

Disaggregate modelling and decisions of retail firms: a case study of clothing retailers 729
E J Miller, S R Lerman

A note on hierarchical income flows 747
G F Mulligan

The time stability of a modal-split model for Tel-Aviv 751
L A Silman

Operational models in urban planning 763
M J Webber

Reviews 781

Volume 13, number 7

Editorial 793

Testing for a common factor in a spatial autoregression model 795
P Burridge

Identification of a frequency distribution: an application to duration in dwelling tenure 801
R Crouchley

Modelling the dynamic effects of multiperiod allocation decisions 809
W G Truscott

Fast and slow equations: the development patterns of urban settings 819
D S Dendrinos, H Mullally

Regional preferences for interlocking directorates among the largest American corporations 829
M B Green

Production, reproduction, and underdevelopment: petty commodity producers in Ujung Pandang, Indonesia 841
D K Forbes

An efficient approach to the estimation of regional input-output multipliers 857
G R West

Manufacturing decentralization: some evidence from Greater Manchester 869
C M Mason

Planners as urban managers: an exploration of the attitudes and self-image of senior British planners 885
P Knox, J Cullen

Future generations and discounting rules in public sector investment appraisal 899
E Kula

Reviews 911

Volume 13, number 8

Editorial 927

Locational specialization of retail trade functions in Warszawa 929
Irena Chudzyńska

Market-area analysis with a rectangular grid network 943
A Anjomani

The problem of aggregation and distance for analyses of accessibility and access opportunity in location-allocation models 955
L Bach

Structural stability and change in geographical space 979
T Puu

The effects of redevelopment schemes on inner-city manufacturing activity in Glasgow: some evidence from two central development areas 991
P J Bull

A unifying framework for public facility location problems—part 1: A critical overview and some unsolved problems 1001
G Leonardi

Conjoining an input-output model and a policy analysis model: a case study of the regional economic effects of expanding a port facility 1029
B H Stevens, G I Treyz, J K Kindahl

Letter to the editor 1039

Reviews 1041

Volume 13, number 9

Editorial 1057

The negative exponential density gradient and the standard radius: mathematical and empirical relationships 1059
D M Mason

Demographic-economic forecasting within an activity-commodity framework: some theoretical considerations and empirical results 1067
P W J Batey, M Madden

A unifying framework for public facility location problems—part 2: Some new models and extensions 1085
G Leonardi

The interpretation of house price statistics for the United Kingdom 1109
M C Fleming, J G Nellis

Rente foncière et modèle de production 1125
J-M Huriot

The family of goals-achievement matrix methods: respectable enough for citizen participation in planning? 1151
T Sager

Transportation mode choice 1163
D Kahn, J L Deneubourg, A de Palma

Letter to the editor 1175

Reviews 1177

Volume 13, number 10

Special issue on the state, the law, and the spatial sciences

Editorial 1189

The state: a research agenda 1191
M Dear

Law, the state, and the spatial integration of the United States 1197
G L Clark

Comments by K R Cox, E S Sheppard 1228

Local implementation strategies in the urban built environment 1233
Ruth Fincher

Local land-development policies and urban housing values 1253
Jennifer R Wolch, S A Gabriel

Comments by K R Cox, E S Sheppard 1273

Dimensions of local state autonomy 1277
M Dear, G L Clark

The Housing Corporation, 1974-1979: an example of state housing policy in Britain 1295
A Kirby

The management and autonomy of the local state: the role of the judiciary in the United States 1305
R J Johnston

Reviews 1317

Volume 13, number 11

Editorial 1323

Misconceptions, misinterpretations, and misrepresentations of behavioral approaches in human geography 1325
R G Golledge

Measuring interstate migration flows: an origin-destination network based on internal revenue service records 1345
R A Engels, Mary K Healy

A family of tests for a collection of Poisson processes: an application to occupancy transfer 1361
R Crouchley

Why geography cannot be Marxist: towards an understanding of lived experience 1371
J Eyles

Dependency and urban growth: a critical review and reformulation of the concepts of primacy and rank-size 1389
Nancy Ettlinger

Location of firms with input transactions 1401
M Fujita

Spatiotemporal models of ethnic segregation and their implications for housing policy 1415
R I Woods

Measurement of the effects of regional policy instruments by means of linear structural equation models and panel data 1435
H Folmer

Letter to the editor 1449

Reviews 1451

Volume 13, number 12

Special issue of papers from the Second European Colloquium on Quantitative and Theoretical Geography

Guest editorials:
Second European Colloquium on Quantitative and Theoretical Geography R J Bennett 1467
The social scientist as expert witness W A V Clark 1468
EA or EIA for Britain? T O'Riordan 1471

The dynamics of urban spatial structure: some exploratory results using difference equations and bifurcation theory 1473
J R Beaumont, M Clarke, A G Wilson

Behavioural models and spatial planning: some methodological considerations and empirical tests 1485
H J P Timmermans, K J Veldhuisen

Testing a disaggregated residential location model with external zones in the Amersfoort region 1499
H Floor, T de Jong

Providing an adequate social infrastructure in rural areas: an application of a maximal supply dispersion model to elementary school planning in Rotenburg/Wümme (FRG) 1515
G Bahrenberg

A linear structural equation approach to cross-sectional models with lagged variables 1529
H Folmer, G A van der Knaap

Log-linear modelling of geographical contingency tables 1539
B Fingleton

Frameworks for the analysis of Landsat digital data 1553
R Harris

Representation of soft and hard data for urban areas—case studies in Berlin and Karlsruhe 1563
H F Kern
